

GOVERNMENT POLYTECHNIC, NANDED
MICRO PROJECT

Academic year: 2020-21

TITLE OF THE PROJECT
Report On Small Scale Industries

Program: Information Tech.

Program code: IF 6 I

Course: MGT

Course code: 22509

Name of Guide:- M. Mohsin Shaikh

**MAHARASHTRA STATE
BOARD OF TECHNICAL EDUCATION
Certificate**

This is to certify that Mr. **Vaibhav Dawane, Shivhar Bane, Harsh Zanwar**
Roll No. 1547, 1568, 1570 of **6th** Semester of Diploma in **Information Technology**
of Institute, GOVERNMENT POLYTECHNIC has completed the **Micro Project**
satisfactorily in Subject - **MGT (22509)** for the academic year 2020 - 2021
as prescribed in the curriculum.

Place: Nanded

Date:

Exam. Seat No:

Subject Teacher

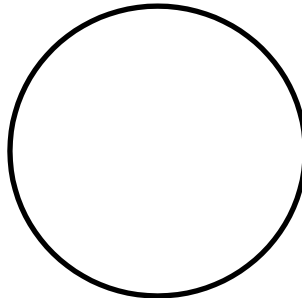

M. Mohsin Shaikh

Head of the Department

ANEEXURE II

Evaluation Sheet for the Micro Project

Academic Year: 2020-21

Name of the Faculty: M. Mohsin Shaikh

Course: MGT

Course code: 22509

Semester: VI

Title of the project: Report On
Small Scale Industries

Cos addressed by Micro Project:

A: Understand various provision of small scale industries.

Major learning outcomes achieved by students by doing the project

(a) Practical outcome:

- 1) Deliver presentation effectively.

(b) Unit outcomes in Cognitive domain:

- 1) Prepare the points for computer presentation.
- 2) Make seminar presentation.

(c) Outcomes in Affective domain:

- 1) Function as team member.
- 2) Follow Ethics.
- 3) Make proper use of computer and Internet

Comments/suggestions about team work /leadership/inter-personal communication (if any)

.....
.....

Roll No.	Student Name	Marks out of 4 for performance in group activity (D 5 Col.8)	Marks out of 2 for performance in oral presentation (D 5 Col.9)	Total out of 06
1547	Shivhar Bane			
1568	Vaibhav Dawane			
1570	Harsh Zanwar

Introduction

In this, we are going to discuss about Small Scale Industries, What is Small Scale Industries and what is the definition of Small Scale Industries, Role of Small Scale Industries. What are the Advantages of Small Scale Industries. What are the Industrial Policy Regarding SSI and Facilities, Incentives and Concessions for SSI. What are Preparation of Modal Schemes for SSI.

Definitions of Small Scale Industries(SSI)

“Small scale industry” is an industry, investment of which does not exceed Rs. 300 lakhs (Rs. 300 lakhs in case of ancillary industrial units also) in plants and machinery, irrespective of the number of persons employed. Generally, these industries employ 10 to 50 persons. Essentially the small scale industries are generally comprised of those industries which manufacture, produce and render services with the help of small machines and less manpower. These enterprises must fall under the guidelines, set by the Government of India. The SSI's are the lifeline of the economy, especially in developing countries like India. These industries are generally labour-intensive, and hence they play an important role in the creation of employment. SSI's are a crucial sector of the economy both from a financial and social point of view, as they help with the per capita income and resource utilisation in the economy.

Role Of Small Scale Industries

The contribution of this sector is considerable to the Indian economy. About 2.4 million units are providing employment to over 14 million people, and contributing over a third of the overall gross output of the manufacturing sector. Output from small enterprises now stands at Rs. 236,500 crores and is growing at a rate of about 8% per annum. This sector is also contributing about a third of country's exports. Today Central and State governments are providing all types of help of the interested persons to solve their problems including money problems. These play a dynamic role in accelerating the rate of industrial growth and attaining economic prosperity of a developing nation. Therefore, in a developing country like India, small industries are of much importance for building up of national economy.

Importance of Small Scale Industries

Small scale industries are important because it helps in increasing employment and economic development of India. It improves the growth of the country by increasing urban and rural growth. Role of Small and medium scale enterprises are to help the government in increasing infrastructures and manufacturing industries, reducing issues like pollution, slums, poverty, and many development acts. Small scale manufacturing industries and cottage industries play a very important role in the economic development of India. If any amount of capital is invested in small scale industries it will help in reducing unemployment in India and increasing self-employment. The industry is a sector in which the production of goods is a segment of the economy. Let us learn more about the importance of Small scale industries and how SSI helps in developing the country.

Market Survey for SSI

The aim of market survey is to find out all the relevant economic and social facts about the markets in which manufacturer's goods will be sold. In market survey, investigation about the product demand, design and cost of production is made. An owner always wants that his money should be utilised to the best possible extent. For this reason planners must survey the market conditions, where the customers are in need of that product, whether the demand is continuous or intermittent. The next important factor a planner should consider is to see that whether similar products are being produced by- some other manufacturers or not and whether he will be able to complete them as regards quality and cost is concerned.

Industrial Policy Regarding SSI

Development of small scale industry is primarily the responsibility of the State Governments. However, the Central Government is very active in helping the state activities in the fields in which they are less developed. The Industrial Policy Resolution 1956 shows more importance to the role of small scale industries in the industrial development of the country. This new policy was declared on 30th April, 1956 to take place of the industrial policy of 1948. It stressed on the importance of the cottage and small scale industries because these industries provide immediate opportunities for employment, distribute national income in a better way.

Characteristics of SSI

- **Ownership** : SSI's generally are under single ownership. So it can either be a sole proprietorship or sometimes a partnership.
- **Management** : Generally, both the management and the control is with the owner/owners. Hence the owner is actively involved in the day-to-day activities of the business.
- **Labor Intensive** : SSI's dependence on technology is pretty limited. Hence they tend to use labour and manpower for their production activities.
- **Flexibility** : SSI's are more adaptable to their changing business environment. So in case of amendments or unexpected developments, they are flexible enough to adapt and carry on, unlike large industries.
- **Limited Reach** : Small scale industries have a restricted zone of operations. Hence, they can meet their local and regional demand.
- **Resources utilisation** : They use local and readily available resources which helps the economy fully utilise natural resources with minimum wastage.

Scope of Small Scale Industry

- Manufacturing activities
- Servicing/repairing activities
- Retailing activities
- Financial activities
- Whole-sale activities
- Construction activities
- Infrastructural activities like transport, communication etc.

Objectives of Small Scale Industry

The main objectives of developing small scale enterprises in India :

- To generate immediate and large scale employment opportunities with relatively low investment.
- To eradicate unemployment problem from the country.
- To encourage dispersal of industries to all over country covering small towns, villages and economically lagging regions.
- To bring backward areas too, in the main stream of national development.
- To promote balanced regional development in the whole country.
- To ensure more equitable distribution of national income.
- To encourage effective mobilization of country's untapped resources.
- To improve the standard of living of people in the country.

Facilities, Incentives and Concessions for SSI

- Governments have also offered a number of facilities, incentives and concessions to the small industries to encourage the industrial development.

- i. Hire Purchase of machinery.
- ii. Tax Concessions.
- iii. Procurement of Raw-materials.
- iv. Power Supply.
- v. Water Supply.
- vi. Market Assistance.
- vii. Technical Assistance.
- viii. Testing Facilities.
- ix. Export Promotion.
- x. Import Licences.
- xi. Industries Reserved for Small Scale Sector.
- xii. Purchase Programme.
- xiii. Reservation of Items.
- xiv. Price Preference.

Advantages of Small Scale Industries

1. It provides better and quick employment.
2. It is labour intensive and capital saving.
3. With small investment production can be easily and quickly started.
4. Highly sophisticated machines and modern technology is not needed.
5. It attracts small savings and diverts them into productive channels.
6. It provides economic development by rapid industrialisation.
7. It provides check on monopoly.
8. It reduces imbalance of income and property

Examples of Small Scale Industries

- **Some examples of small scale industries are:**

- i. Paper Bags industries
- ii. Leather belt manufacturing industries
- iii. Small toys manufacturing industries
- iv. Bakeries
- v. School stationeries
- vi. Water bottles manufacturing industries
- vii. Beauty parlours
- viii. Pickle manufacturing industries
- ix. Incense stick manufacturing industries
- x. Paper plate manufacturing industries

PROJECT ABSTRACT

In this report we have discussed about Small Case Industries. What are Small Scale Industries, Defination of Small Scale Industries, Importance of Small Scale Industries, Role of Small Scale Industries, Scope of Small Scale Industries, Objectives of Small Scale Industries, What are the Advantages of Small Scale Industries. What are the Industrial Policy Regarding SSI and Facilities, Incentives and Concessions for SSI. What are Preparation of Modal Schemes for SSI. .

CONCLUSION

In this report we have studied briefly about Small Scale Industries. What is Small Scale Industries, What are the different types of Small Scale Industries, Characteristics of Small Scale Industries, Importance of Small Scale Industries etc.
